SEAN MCDOWELL RESOURCES

Sean has written and produced many helpful resources. Visit the book table this morning in the lobby. Here are a few suggested resources based on today's subject material.

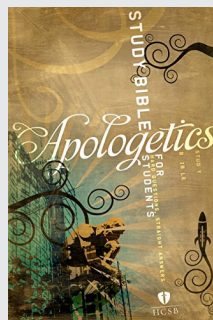

UNDERSTANDING INTELLIGENT DESIGN By William A. Dembski and Sean McDowell

The prevailing mind-set in our schools and in the media is that everything we see came into being strictly by accident. But in this user-friendly resource, William Dembski and Sean McDowell show that many scientists are now admitting that this viewpoint is not based on facts. Understanding Intelligent Design clearly shows what the best information is revealing—that our existence is not an accidental by-product of nature but the clear result of intelligent design.

IS GOD JUST A HUMAN INVENTION? By Sean McDowell and Jonathan Morrow

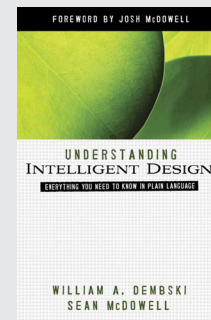

From talk shows to bus campaigns, the question of God is up for public debate. The New Atheists want you to question your faith. So do authors Sean McDowell and Jonathan Morrow. They know that the solid evidence for God and Christianity can withstand the New Atheists' emotionally compelling and sometimes disturbing attacks. The truth about God is too important not to be seriously investigated and honestly discussed.

APOLOGETICS STUDY BIBLE FOR STUDENTS By Sean McDowell and Holoman Bible Staff

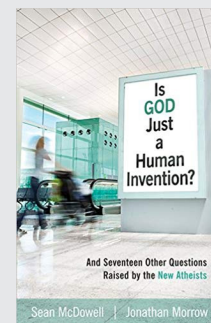

The Apologetics Study Bible for Students anchors younger Christians in the truths of Scripture by equipping them with thoughtful and practical responses for whenever the core issues of their faith and life are challenged.
